Perfect Your Photography Today!

Are you ready to take your photography to the next level, from snapshot shooter to photographer? Have you always loved “taking pictures” but feel your photos just don’t stand out when you look at other photography? If so, then this book is for you!

Through the Lens is not necessarily a beginner’s photography book, although beginners will learn some basics. It’s a book where you learn nuances such as getting everything you want in the shot, avoiding what you don’t want, and getting everything to look like you want it to, whether you’re just starting out or have been shooting for years.

You’ll learn about lighting, positioning your subjects (be they human or inanimate), and post processing to include color and contrast enhancement, and the all-important cropping. Learn what sets professionals’ photography apart from amateur work, and how to make your images “snap.”

***Through the Lens* addresses such topics as:**

- ◆ Ensuring Sharpness
- ◆ Using a Variety of Lenses
- ◆ Using Flashes
- ◆ Shooting Indoors
- ◆ Shooting Outdoors
- ◆ Travel Shooting
- ◆ Organizing Your Files
- ◆ Printing Your Images

Member

AMERICAN SOCIETY OF MEDIA PHOTOGRAPHERS

About the Author - Gary Michael Smith has been photographing for more than 30 years, holding positions with such companies as Lockheed-Martin, Boeing, Northrop Grumman, CACI, and the American Heart Association. His fine art photography has displayed in galleries and online, and his editorial, documentary, photojournalism, and commercial photography have appeared in numerous online and print trade and consumer publications. He is a member of the American Society of Media Photographers, National Press Photographers Association, Photographic Society of America, Greater New Orleans Photographic Society, and the New Orleans Photo Alliance.
