

Katrina Tails

DVD Edition with Bonus Features

KATRINA TAILS follows a diverse group of New Orleans residents in their efforts to be reunited with their pets in the aftermath of Hurricane Katrina. The film captures the event from both sides of the fence: the pet owners' efforts to find their missing friends and the volunteer rescue workers' efforts to save pets that have been trapped in the flooded city. This 90-minute documentary provides insight into the human/animal bond, couched in a narrative to which everyone can relate: the search for a loved one.
